Hazardous Materials Questionnaire

Facility Name _____		
Site Address _____		
Mailing Address _____		
Business Description _____		
Owner Name _____		
Contact Name & Phone Number _____		
Parcel Number _____	File Number _____	Permit Number _____

This form must be filled out completely and accurately for timely processing of your entitlement application or building permit(s). Section 65850.2 of the Government Code requires that occupancy be allowed only after compliance with Sections 25505, 25533, and 25534 of the California Health and Safety Code.

1. Will this facility **use, store, or handle** any of the following as part of this permit application? If YES, **Section 25505 of the California Health and Safety Code** requires submission of a Business Plan (or Hazardous Materials Management Plan) which includes site maps, chemical inventory, employee training, and emergency response plans. (Circle items below as appropriate):

☐ Yes ☐ No

Carcinogens	Liquefied Petroleum Gas	Solvents	Compressed Gases
Organic Peroxides	Explosives	Corrosives	Oxidizers
Pesticides	Flammable Liquids	Combustible Liquids	Hazardous Waste
Aboveground Tanks	Underground Tanks	Other _____	

(Examples of typical products may include, but are not limited to: motor oil, gasoline, antifreeze, paint, thinner, propane, acetylene, and perchloroethylene)

2. Will this facility use **Extremely Hazardous Substances** in excess of **Threshold Planning Quantities** (TPQ)? See attached for chemical listing.

☐ Yes ☐ No

3. If the facility uses **Extremely Hazardous Substances** in any quantity, is the facility located within 1,000 feet of a school, day care center, hospital, convalescent hospital or retirement home?
- ☐ Yes ☐ No

Typical Facilities that Handle Hazardous Materials

General:

Cold storage facilities, e.g., canneries or milk processors

Wineries

Agricultural products manufacturers or warehouse

Automotive:

Automotive repair shops, e.g., dealers, body repairs shops, radiator shops, or oil changing shops

Wrecking yards

Gas stations

General Commercial:

Boat repair shops

Contractors' yard

Equipment repair shops

Trucking yards, including truck wash racks

Tank car cleaning and repair yards

Dry cleaners

Printers

Pool product suppliers

Painting contractors' yards

Furniture repair shops

University science labs or maintenance shops

Typical Facilities that Handle Hazardous Materials (Continued)

Manufacturing:

Chemical / petrochemical processing

Refineries

Manufacturing, e.g., paint manufacturers, circuit board manufacturers, and catalysts manufacturers

Oil and gas drilling

Oil and gas terminals

Metal working, including steel mills and platers

Research and development firms

Paper mills

Pharmaceutical firms

Federal facilities

Recycling:

Drum recyclers

Coke and ash recyclers

Other:

Cogeneration facilities

Water treatment and waste water (sanitary) treatment facilities

Golf courses

Pools (usually in parks or country clubs)
